

Cell Booster Tower Trailer

Portable Cell Tower

Poor cell reception in remote areas is now a thing of the past. Blue Arrow Communications combines the most powerful cell repeaters on the market with their portable telescoping 75 ft. tower to deliver clean, reliable cell service strong enough to support all voice and data services. Be it at a rig camp or a construction site, our qualified technologists work in conjunction with the telecom companies to ensure the best connectivity possible. Contact Blue Arrow Communications today for a quote on your next project.

Rigless Cell Booster

Don't have a rig or any other tall structure near by? No problem. Let Blue Arrow Communications provide the tower and the cell booster so that everyone on location can have strong, reliable cell service. It's just like having your own cell tower in the corner of your lease. Compact and highly portable, we can be mobile at a moments notice and have you professionally setup in less than an hour. Contact Blue Arrow Communications to fill the coverage gap.
